

## • Flowchart •

\* Main \*

\* Swap \*

## \* Number swap by reference \*

### • Algorithm • Main •

Step 1	Start
Step 2	Read values of A and B
Step 3	Call function swap (&a, &b)
Step 4	Stop

### • Algorithm • Swap •

Step 1	Start
Step 2	temp = *a *a = *b *b = temp
Step 3	Print swapped variables
Step 4	Stop
