

## • Distinct Element count in array •

### \* Algorithm

Step 1 : start

Step 2 : Read  $n$

Step 3 : Repeat step 3 for  $i = 0$  to  $n-1$   
Read  $arr[i]$

Step 4 : Repeat step 4 for  $i = 0$  to  $n-1$   
 $count \leftarrow 0$

Repeat for  $j = 0$  to  $n-1$

{

if  $arr[i] == arr[j]$  &  $i \neq j$

$count = count + 1$

}

if ( $count == 0$ )

$rep = rep + 1$

Step 5 : Print  $rep$

• Flowchart.
